(4) In 40 C.F.R. section 273.1(b), replace "40 CFR parts 260 through 272" with "chapters 11-260.1 to 11-270.1".

(b) The incorporation by reference of 40 C.F.R. part 273 is amended by adding a new section, 40 C.F.R. section 273.6, to read:

"§273.6 Applicability—Electronic items.

(a) Electronic items covered under chapter 11-273.1. The requirements of this chapter apply to persons managing electronic items, as described in 40 C.F.R. section 273.9, as incorporated and amended in this chapter, except those listed in paragraph (b) of this section.

(b) Electronic items not covered under chapter 11-273.1. The requirements of this chapter do not apply to persons managing the following electronic items:

- (1) Electronic items that are not yet wastes under chapter 11-261.1. A universal waste handler who claims that an electronic item is not a waste must manage that item as a product and bears the burden of demonstrating that there is a known market or disposition for its re-use as an electronic item.
- (2) Electronic items that were previously identified as wastes under chapter 11-261.1 but are no longer identified as wastes (e.g., a discarded electronic item that is refurbished and is returned to service).
- (3) Electronic items that do not exhibit a toxicity characteristic of a hazardous waste as set forth in chapter 11-261.1 and that are not otherwise identified as hazardous waste pursuant to chapter 11-261.1. A universal waste handler who claims that a waste electronic item does not exhibit a toxicity characteristic bears the burden of demonstrating that the electronic item is not a hazardous waste. Assume all waste electronic items to be hazardous unless you

evaluate and can document that they are non-hazardous (e.g., pass the Toxicity Characteristic Leaching Procedure [TCLP] test, as described in 40 C.F.R. sections 260.11 and 261.24 and incorporated by reference in chapters 11-260.1 and 11-261.1, and are not otherwise identified as hazardous waste pursuant to chapter 11-261.1)."

(c) The incorporation by reference of 40 C.F.R. section 273.9 is amended as follows:

(1) The following definitions are amended as follows:

"Destination facility" definition. Replace "§273.13 (a) and (c) and §273.33(a) and (c)" with "40 C.F.R. sections 273.13 and 273.33, as incorporated and amended in this chapter".

"Large Quantity Handler of Universal Waste" definition. Replace "or lamps" with "lamps, or electronic items".

"Small Quantity Handler of Universal Waste" definition. Replace "or lamps" with "lamps, or electronic items".

"Universal Waste" definition. Replace "§273.4; and (4) Lamps as described in §273.5" with "40 C.F.R. section 273.4, as incorporated and amended in this chapter; (4) Lamps as described in 40 C.F.R. section 273.5, as incorporated and amended in this chapter; and (5) Electronic items as described in 40 C.F.R. section 273.6, as incorporated and amended in this chapter".

"Universal Waste Handler" definition. Replace "40 CFR 273.13 (a) or (c), or 273.33 (a) or (c)" with "40 C.F.R. 273.13 or 273.33, as incorporated and amended in this chapter".

(2) Add the following additional definitions in alphabetical order:

"Circuit board" means the part of an electronic device that mechanically supports

and electrically connects electronic components (such as capacitors, diodes, power sources, resistors, sensors, switches, transducers, transistors, etc.) using conductive tracks.

"Electronic item," also referred to as "universal waste electronic item," means a device containing a circuit board, or other complex circuitry, or a video display. Indicators that a device likely contains a circuit board include the presence of a keypad, touch screen, any type of video or digital display, or common electronic ports or connectors, such as serial, parallel, Rj45 ("network"), or USB. Examples of common universal waste electronic items include, but are not limited to: computer central processing unit; computer monitor; portable computer (including notebook, laptop, and tablet computer); devices designed for use with computers (also known as computer peripherals) such as keyboard, mouse, desktop printer, scanner, and external storage drive; server; television; digital video disc (DVD) recorder or player; videocassette recorder or player (VCR); eBook reader; digital picture frame; fax machine; video game equipment; cellular telephone; answering machine; digital camera; portable music or video player; wireless paging device; remote control; and smoke detector. Electronic item does not include a device that is physically a part of, connected to, or integrated within a large piece of equipment that is not meant to be hand-carried by one person. A device is considered physically a part of, connected to, or integrated within a large piece of equipment if the device cannot be easily disconnected from the large equipment by a layperson without specialized training. When a device containing a circuit board or

a video display is removed, separated, or separate from the large piece of equipment that it is meant to be a part of, it is a universal waste electronic item.

"Video display" means the part of an electronic device capable of presenting images electronically on a screen viewable by the device user. A video display may use cathode ray tube, liquid crystal display (LCD), gas plasma, digital light processing, or other image projection technology. - §11-273.1-4 Amendments to the incorporation of 40 C.F.R. part 273, subpart B. (a) The incorporation by reference of 40 C.F.R. section 273.13 is amended by adding a subsection (e) to read: "(e) Electronic items. A small quantity handler of universal waste must manage electronic items in a way that prevents releases of any universal waste or component of a universal waste to the environment, as follows:
- (1) Electronic items shall be stored in
 - (i) A building, with a permanent roof and floor, that is constructed and maintained to minimize breakage of electronic items and to prevent exposure of the electronic items to precipitation; or
 - (ii) A closed and secure container that is constructed and maintained to minimize breakage of electronic items and to prevent exposure of the electronic items to precipitation.
 - (2) All universal waste electronic items must be stored in a building or container meeting the requirements of paragraph (1) within 24 hours of being discarded.

- (3) A small quantity handler of universal waste shall immediately clean up and place in a container any universal waste electronic item that shows evidence of leakage, spillage, or damage that could cause leakage under reasonably foreseeable conditions. The container shall be closed, structurally sound, and compatible with the contents of the electronic item, and shall lack evidence of leakage, spillage, or damage that could cause leakage under reasonably foreseeable conditions.
- (4) A small quantity handler of universal waste may conduct the following activities:
 - (i) Sorting electronic items by type;
 - (ii) Mixing electronic item types in one container;
 - (iii) Removal of discreet assemblies that are typically removed by consumers for replacement during the normal operation of an electronic item (e.g., battery packs, ink cartridges). A universal waste handler shall conduct the removal of the discrete assemblies in the manner that is prescribed in the operating manual for the electronic item, or in a manner that would otherwise reasonably be employed during the normal operation of the electronic item.
 - (iv) Removal of separable non-electronic pieces that are intended for assembly by retailers or consumers (e.g., monitor saucer, wall hanging bracket, cell phone case).
- (5) A small quantity handler who generates other solid waste (e.g., battery packs, monitor saucers) as a result of the activities listed in paragraph (4) shall make a hazardous waste determination pursuant to 40 C.F.R. section 262.11, as incorporated and amended in section 11-262.1-1.
 - (i) If the waste exhibits a characteristic of hazardous waste, it is subject to all applicable requirements of chapters 11-260.1 to 11-270.1. If the waste is another type of

universal waste (e.g., a battery), it may be alternatively managed under this chapter. The handler is considered the generator of the waste and is subject to chapter 11-262.1.

- (ii) If the waste is not hazardous, the handler may manage the waste in any way that is in compliance with applicable federal, state, and local solid waste regulations."

(b) The incorporation by reference of 40 C.F.R. section 273.14 is amended as follows:

- (1) In 40 C.F.R. section 273.14(a), replace "Universal waste batteries (i.e., each battery), or a container in which the batteries are contained" with "Each battery, or container or pallet containing universal waste batteries".
- (2) In 40 C.F.R. section 273.14, add a subsection (f) to read: "Each electronic item, or container or pallet containing universal waste electronic items, must be labeled or marked clearly with one of the following phrases: "Universal Waste—electronic item(s)," or "Waste electronic item(s)," or "Used electronic item(s)."

(c) 40 C.F.R. section 273.19 is replaced in its entirety to read:

"§273.19 Tracking universal waste shipments.

- (a) Receipt of shipments. A small quantity handler of universal waste must keep a record of each shipment of universal waste received at the facility. The record may take the form of a log, invoice, manifest, bill of lading, or other shipping document. The record for each shipment of universal waste received must include the following information:
