The allocation of EMS special funds directed by Act 158, SLH 2004, was based on a study conducted by the department in 2001 that prioritized the areas that additional ambulance services were needed through-out the state. The priority areas were metropolitan Honolulu, Waianae/Nanakuli, and Kaaawa/Kahaluu on the island of Oahu; Wailea on the island of Maui; and Ocean View Estates on the island of Hawaii. These areas were specifically targeted for enhanced services to be paid for from the new EMS special fund.
Act 158, SLH 2004, also recognized the shortage of paramedics and need for training of emergency medical personnel by allocating funding for enhanced paramedic training on the neighbor islands. The allocation of funds was based upon funding availability and the resources available for development and training.

The department continues to maintain and operate the statewide EMS system including the enhancements added pursuant to Act 158, SLH 2004, through its contracted providers.
