We have continued our tried and true activities, such as the Day at the Capitol event, Legislative Forums in all Counties. We have also participated in planning of the Pacific Rim Conference on Disabilities.

The Hawaii Self-Advocacy Advisory Council (SAAC) is a group of self-advocate leaders with intellectual and developmental disabilities who are actively engaged in their community to address the concerns and needs of their peers throughout the State.

THE COUNCIL...

State Councils were established in response to the federal Developmental Disabilities Services and Facilities Construction Act of 1970 (PL 91-517). Hawai‘i’s Council was established in State Law by Act 198, Session Laws of Hawai‘i, in 1975.

The Council is administratively attached to the Department of Health (DOH). The department serves as the designated state agency, providing fiduciary and administrative support.

The Council engages in activities which change the system of services for people with developmental disabilities and conducts systems change, capacity building, and advocacy activities that...

- Provide training for individuals with developmental disabilities and their families including legislative advocacy, training on the legislative process, and leadership development;
- Demonstrate new approaches to services, supports, and assistance;
- Inform federal, state, and local policymakers;
- Foster interagency collaboration and coordination;
- Eliminate barriers and enhancing the design and redesign of systems;
- Develop and support coalitions;
- Educate the public; and
- Coordinate and support community activities that follow the Council’s mission.

The Council, appointed by the Governor, is a group of individuals dedicated to improving the lives of Hawai‘i’s citizens with developmental disabilities. The philosophy of membership is that all key stakeholders are represented at the Council table: individuals with developmental disabilities; their family members, advocates; representatives of state and private agencies who provide services; representatives of the Hawai‘i Disability Rights Center (HDRC), the state’s Protection and Advocacy agency; University of Hawai‘i’s Center on Disability Studies (CDS) and other key community interests. The beauty of this composition is in the skills and experience that each brings to the table and shares with other Council members.
