

STATE OF HAWAII
DEPARTMENT OF HEALTH
OFFICE OF THE DEPUTY DIRECTOR OF HEALTH
MAUI DISTRICT HEALTH OFFICE

FUNCTIONAL STATEMENT

The District Health Office represents the Office of the Director of Health on the county level.

- Directs and coordinates the activities and programs of the Maui District Health Office. The District Health Officer also plans and develops the Department's programs and program changes for county operations.
- The vital statistics program, hospital and medical facilities inspections, communicable disease and tuberculosis control, emergency health mobilization, health education and office services programs are specific activities of this office.

ADMINISTRATIVE SERVICES

- Administers the operations of the District Health Office staff and renders administrative and office support to the District Health Officer and programs (organizational segments).
- Provides purchasing and accounting services, other fiscal activities including inventory control of supplies, equipment and facilities. Also coordinates all personnel activities, including records and files and employment, classification and information services.

CHRONIC DISEASE MANAGEMENT & CONTROL

- Cooperates with the Department's Chronic Disease Management and Control Branch and integrates its aims with the programs of the District Health Office. Provides information and education on health-related matters for the County.

DISEASE OUTBREAK CONTROL SECTION

- Provides for the prevention and control of infectious diseases, except for Hansen's Disease, Tuberculosis, and sexually transmitted diseases, including HIV/AIDS.
- Coordinates preparedness planning activities to respond to a public health emergency, such as, a bioterrorism event or a severe outbreak of a dangerous infectious disease.

DISEASE INVESTIGATION UNIT

- Investigates, surveys, prevents and controls general communicable diseases of public health importance, including potential bioterrorism agents.
- Monitors incoming disease reports for occurrence of unusual or rare diseases, disease clusters, and outbreaks in the community.

STATE OF HAWAII
DEPARTMENT OF HEALTH
OFFICE OF THE DEPUTY DIRECTOR OF HEALTH
MAUI DISTRICT HEALTH OFFICE

FUNCTIONAL STATEMENT

PUBLIC HEALTH PREPAREDNESS UNIT

- Conducts all-hazard preparedness planning
- Assesses readiness to respond to public health emergencies.
- Provides and ensures the availability of training to prepare for and respond to public health emergencies.

STD/AIDS PREVENTION SECTION

- Controls, prevents and surveys STD/AIDS for Maui County through investigation, testing, counseling, and contact tracing. Activities may also include other bloodborne pathogens.

LABORATORY SECTION

- Provides selective microbiological laboratory services primarily to various State Department of Health programs and other private and governmental agencies.

CASE MANAGEMENT AND INFORMATION SERVICES SECTION

Provides case management and support services for adults and children who are Developmentally Disabled/Mentally Retarded. The functions of this Branch are case management, case/service planning, service broker procurement, monitoring, review, and follow along services.

CASE ASSESSMENT

- Develops a comprehensive case assessment developed by the case manager shall identify the individual's abilities, deficits, interests and needs and shall include documentation.

CASE/SERVICE PLANNING

- Develops Individual Service Plan (ISP) or central plan of service, follows case assessment and addresses the needs of the individual, including, but not limited to housing, family relationships, social activities and relationships, education or training, finance, employment, health (including special health needs), recreation, communication and mobility.
- ISP shall be a collaborative process involving the individual, the family/guardian, the case manager, and other interested persons as identified by the individual or guardian.

SERVICE BROKER PROCUREMENT

- Maintains a supportive relationship with the individual so he/she may remain in the community. In order to accomplish this, worker must work with provider or services, family members, other professionals such as a

MAUI DISTRICT HEALTH OFFICE

FUNCTIONAL STATEMENT

psychologist. This function implements the ISP or central plan of service.

MONITORING, REVIEW AND IMPLEMENTATION

- Monitors implementation and coordination of the individual's central plan of service. Reviews and revises the central plan of services and any other individualized plan at least annually.

FAMILY HEALTH SERVICES SECTION

- Administers programs that plan, provide and promote health services to families, children and youth. Provides overall planning and coordination for all assigned programs. Provides clerical support services.

CHILDREN WITH SPECIAL HEALTH NEEDS

- Provides diagnosis as early as possible for chronic physically handicapping conditions in children under 21 years of age and provides comprehensive family-centered and community based treatment and habilitative services to children and families in need through the PHN assisted service program. This program plans, develops and coordinates within Maui County and administers the County's Newborn Metabolic Screening Program mandated by statute to identify newborns with phenylketonuria (PKU) and congenital hypothyroidism. Provides and coordinates nutrition services for children with special health needs.
- The social work for this program administers a dual program for (1) providing medical social work services to patients and families with children with special health needs and (2) assuring case management services to children under 16 years of age in Hawaii who receive Supplemental Security Income.

WIC SERVICES (WOMEN, INFANTS AND CHILDREN)

- Implements provisions of PL 95-627 enacted by Congress in 1978, by providing special supplemental foods to low income pregnant women nursing mothers and infants and children up to age 5, who are at nutritional risk with funds provided by the United States Department of Agriculture through the WIC Program.
- Provides nutrition screening and assessment and education to participants in the program and coordinates and consults with staffs of the Department of Health clinics and other local agencies in the operations of this program.
- Monitors vendors to ensure adequate supply of WIC special program supplemental foods and determines compliance with the WIC Program regulations.

STATE OF HAWAII
DEPARTMENT OF HEALTH
OFFICE OF THE DEPUTY DIRECTOR OF HEALTH
MAUI DISTRICT HEALTH OFFICE

FUNCTIONAL STATEMENT

- Collects and evaluates data to determine the effectiveness of the WIC Program.
- Interprets regulations to the public, state agencies, and others, as required.

MATERNAL AND CHILD HEALTH

- Acts as a liaison with the maternal child health services in the Family Health Services Division, District Health Office and the community in ensuring that appropriate maternal child health services are coordinated and provided for Maui County.
- Works with the community in identifying its needs and coordinates activities that are related within the Maui District Health Office with public health nursing branch and other programs as needed.

EARLY INTERVENTION PROGRAM

- Identifies individual family health needs and acts as case manager in ensuring that appropriate services and support are provided for these families in need of the services.
- Works actively in the areas of child abuse prevention and assists in assuring that appropriate services are provided for these families with appropriate support services.

PUBLIC HEALTH NURSING SECTION

- Serves as a generalized, multifaceted program which strives for optimum health of the population through the administration and delivery of nursing services to the community which include schools, families and individuals.
- Provides services in the home, clinic, neighborhood/ health center, day/family care center, and adult residential care home, preschool, school, office and work site.
- Utilizes disease prevention, health promotion, health maintenance, health education, case management/care coordination and continuity of care in a total approach to the provision of services to the at risk individual families, groups and communities.
- Responsible for assessment of community health status, program planning, program development, budgeting, implementation of program plans, monitoring, evaluation, documentation and standard setting.
- Collaborates with the DOH medical and interdisciplinary program staffs in providing nursing intervention services.
- Provides appropriate nursing services based on individual/family needs
