ASSURANCES

REQUIRED FOR ALL PROJECTS

1. The applicant has the legal, institutional, managerial and financial capability to ensure adequate construction, and operation and maintenance (including replacement) of the drinking water treatment works, and has analyzed the local share of the costs of the proposed drinking water treatment facilities, including the financial impact on each community and the residents of the service areas.
2. The applicant will operate and maintain the treatment works in accordance with the minimum standards as required by the cognizant Federal, State and local agencies for the operation and maintenance of such facilities.
3. The applicant will initiate procurement action for A/E and/or construction services for building all significant elements of the project in accordance with the project schedule indicated in this application and approved by DOH upon issuance of the loan agreement.
4. The applicant will diligently pursue project completion in accordance with the project schedule submitted herewith.
5. The applicant will give the State of Hawaii or its assignees, through any authorized representative, access and the right to examine all records, books, papers, or documents related to the loan; and will retain all construction records for three years following the project initiation of operation.
6. The applicant will maintain a financial accounting system in accordance with the generally accepted accounting principles set forth by the Governmental Accounting Standards Board.
7. The applicant will not dispose of, or modify the use of or change the real property title terms or other interest in the site and facilities without permission and instructions from DOH.
8. The applicant will establish safeguards to prohibit employees from using their positions for purposes that constitute or give the appearance of personal or organizational conflict of interest.
9. The applicant has not and will not violate any Federal, State, or local law pertaining to fraud, bribery, graft or collusion.
10. The applicant will provide and maintain competent and adequate engineering supervision and inspection at the construction sites to ensure that the completed work conforms with the approved plans and specifications and will furnish progress reports and such other information as DOH may require.
11. The applicant will comply with all applicable federal and state requirements, including all other laws, regulations, policies, applicable requirements and conditions relating to assistance for this project.
12. The applicant will comply with Davis Bacon Act and American Iron and Steel (AIS) requirements and all provisions thereof.
13. The applicant must certify that it will comply with all federal socio-economic anti-discrimination "super cross-cutting" authorities (including, but not limited to: Age Discrimination Act of 1975 (42 USC 6102), Civil Rights Act of 1964, Title VI (42 USC 2000d), and Equal Employment Opportunity (EO 11246, as amended))
