HAWAII DEPARTMENT OF HEALTH
STATE REVOLVING FUND (SRF) LOAN PROGRAM
EXEMPT PROJECT DETERMINATION
FOR
HONOLULU BWS PRO-FI SFY 2021
HBWS-PF21
BOARD OF WATER SUPPLY
COUNTY OF HONOLULU**

DOCKET NO. 21-SDWB-SRF-06

The Hawaii Department of Health (DOH) has conducted a review of the proposed project for the Department of Water Supply, County of Oahu, in accordance with Hawaii's State Environmental Review Process, Chapter 343 of the Hawaii Revised Statutes, Section 11-200-8 of the Hawaii Administrative Rules, and 40 CFR §35.3140 for CWSRF projects, or 40 CFR §35.3580 for DWSRF projects.

Project Description:

Water system improvements on the Island of Oahu.

Sub-projects:

- *Anoi Road Water System Improvements;*
- *Diamond Head Line Booster;*
- *Halawa Wells and Halawa Booster No. 2 Pump Replacement;*
- *Kalihi Pump Station Renovation;*
- *Kapiolani Boulevard: 12-Inch Water Main;*
- *Keanu Line Booster: Replace Pumping Units;*
- *Lunalilo Home Road Water System Improvements;*
- *Moanalua Wells: Replacement of Pump No. 1*
- *Pearl City Wells I*
- *Pearl City Wells II Isolation Valves;*
- *Pump Renewal and Replacement Kaluanui Line Booster, Diamond Head Line Booster, Kaonohi Booster I, Waihee Line Booster, Punaluu Wells II;*
- *Pump Renewal for Keanu Line Booster, Maunalani Booster, Mariner's Ridge Booster, Aina Koa Booster;*
- *Punaluu Wells II Renovation;*
- *Punanani Wells MCC Replacement;*
- *Rehabilitation of Pipelines and Tunnels: Makapuu Tunnel; and*
- *Waialai Iki Well Renovation.*

DOH has determined that the project is eligible for Exemption under Section 11-200-8(a), HAR, and because the sub-projects fall under one or more the following list items, as reviewed and concurred upon by the Environmental Council on July 23, 2009:

Exemption Class 1: Operations, repairs or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible or no expansion or change of use beyond that previously existing.

Exempt Item Number(s) with Description:

1. Painting of structure exterior or interior.
2. Repair of Damages to structure exterior or interior caused by termites, dry rot, spalling, cracking, delaminating, etc.
9. Parking lot resurfacing and striping.
10. Reroofing.
- 11.
16. Repair and maintenance of pipeline tunnels.
17. Repair and maintenance of access roads and pathways.
19. Repair and maintenance of water mains, meters, fire hydrants, fire standpipes, valves, manholes, stream gages, and monitor wells.
20. Repair and maintenance of water treatment equipment and facilities.
21. Repair and maintenance of water well and booster pumps, pressure preacher tanks, surface and ground water intakes, remote control valves, chlorination equipment, and appurtenances.
22. Repair and maintenance of electrical equipment.
25. Repair and maintenance of chain link fencing and gate.
26. Repair of curbs and sidewalks.
27. Repair and maintenance of reservoirs and pump buildings.
- 34.
37. Repair and maintenance of electrical equipment.
43. Temporary and permanent road patching for repair and maintenance of water facilities.

Exemption Class 2: Replacement or reconstruction of existing structures and facilities where the new structure will be located generally on the same site and will have substantially the same purpose, capacity, density, height, and dimensions as the structure replaced.

Exempt Item Number(s) with Description:

1. Replacement or reconstruction:
 - d. Drainage structures.
 - e. Driveways.
 - l. Booster pumps.
 - p. Chlorination and water treatment.
2. Replacement of:
 - a. Equipment, including electrical and water treatment.
 - b. Doors.
 - f. Water well and booster pumps and appurtenances.
 - i. Chain link fencing and gates.
 - j. Telemetered circuits and communication systems.
3. Replacement of waterlines and appurtenances including concrete jackets within existing rights-of-way where no change in purpose is intended. Replacement may be size for size or may involve and increase in pipe diameter if existing waterline is inadequate to meet current Water system Standards and current zoning requirements.

Exemption Class 3: Construction and location of single, new small facilities or structures and the alteration and modification of same and installation of new small equipment and facilities and the alteration and modification of same

including but not limited to: (a) single family residences less than 3,500 square feet, if not in conjunction with the building of two (2) or more such units; (b) multi-unit structures design for not more than four (4) dwelling units, if not in conjunction, with the building of two (2) or more such structures; (c) stores, offices and restaurants designed for total occupant load of twenty (20) persons or less, if not in conjunction with the building of two (2) or more such structures; (d) water, sewage, electrical, gas, telephone, and other essential public utility services extension to serve such structures or facilities; and (e) accessory or appurtenance structures including garages, carports, patios, swimming pools, and fences; and acquisition of utility easements.

Exempt Item Number(s) with Description:

1. Construction and alteration of:
 - e. Sidewalks and covered walkways.
2. Installation and modification of:
 - g. Motor Control centers and chlorinator buildings.
3. Extension of existing waterlines to complete grid within existing rights-of-way easements.
14. Alterations to water well pumping equipment including installation of control valves, chlorination systems or alterations of pumps.

Exemption Class 4: Minor alterations in the condition of land, water or vegetation.

Exempt Item Number(s) with Description:

2. Tree trimming and removal of trimmings, grubbing and mowing of lawn area, planting of trees, other plants and sods, and pruning of trees and shrubs.
5. Landscaping and installation of irrigation systems.

Exemption Class 7: Interior alterations involving such things as partitions, plumbing and electrical conveyances.

Exempt Item Number(s) with Description:

2. Plumbing installation, relocation or removal.
3. Electrical installation, relocation or removal.
4. Door installation, relocation or removal.
5. Window installation, relocation or removal.

Exemption Class 8: Demolition of structures, except those structures located on any historic site as designated in the HAR Chapter 11-200, National Register or Hawaii Register as provided for in the National Historic Preservation Action of 1966, Public Law 89-665, 16 U.S.C., Section 470, as amended, or Chapter 6E, Hawaii Revised Statutes.

Exempt Item Number(s) with Description:

3. Demolition of reservoirs and other abandoned water system appurtenances.

Exemption Class 9: Zoning variances except shoreline setback variances

Exempt Item Number(s) with Description:

1. Demolition of reservoirs and other abandoned water system appurtenances.

Accordingly, the project is exempt from further substantive environmental review requirements under the above stated authorities. Accordingly, the project is exempt from further substantive environmental review requirements under the above stated authorities.

The documentation to support this decision will be on file at the DOH, Environmental Management Division, in Pearl City, Hawaii, and is available for public review upon request.

This notice is hereby given on this 2nd day of February 2021, by authorization of Elizabeth A. Char, M.D., Director of Health.

HAWAII DEPARTMENT OF HEALTH
STATE REVOLVING FUND (SRF) LOAN PROGRAM
EXEMPT PROJECT DETERMINATION
FOR
HAWAII DWS PRO-FI SFY 2021
HDWS-PF21
DEPARTMENT OF WATER SUPPLY
COUNTY OF HAWAII**

DOCKET NO. 21-SDWB-SRF-05

The Hawaii Department of Health (DOH) has conducted a review of the proposed project for the Department of Water Supply, County of Hawaii, in accordance with Hawaii's State Environmental Review Process, Chapter 343 of the Hawaii Revised Statutes, Section 11-200-8 of the Hawaii Administrative Rules, and 40 CFR §35.3140 for CWSRF projects, or 40 CFR §35.3580 for DWSRF projects.

Project Description:

Water system improvements on the Island of Oahu.

Sub-projects:

*Hualalai Deepwell Repair
Piihonua #1 Deepwell C Repair
Kaieie Mauka Facility Improvements
Kahaluu Mauka Facility Improvements
Olaa #6 Deepwell Repair
Honokohau Deepwell Emergency Repair
Pana'ewa Well A Repair
Holualoa Deepwell Repair
Keahuolu Deepwell Repair
Waikoloa Reservoir #1 Earthquake Repair
Puako Waterline Replacement*

DOH has determined that the project is eligible for Exemption under Section 11-200-8(a), HAR, and because the sub-projects fall under the following list items, as reviewed and concurred upon by the Environmental Council on November 8, 2006:

Exemption Class 1: Operations, repairs or maintenance of existing structures, facilities, equipment, or topographical features, involving negligible or no expansion or change of use beyond that previously existing.

Exempt Item Number(s) with Description:

2. Facilities

b. Repair and maintenance of deep well and controls

Exemption Class 2: Replacement or reconstruction of existing structures and facilities where the new structure will be located generally on the same site and will have substantially the same purpose, capacity, density, height, and dimensions as the structure replaced.

Exempt Item Number(s) with Description:

1. Structures
 - b. Replacement or reconstruction of buildings for no substantial change in use.

Exemption Class 3: Construction and location of single, new, small facilities or structures and the alteration and modification of the same and installation of new, small equipment and facilities and the alteration and modification of same, including, but not limited to:

- (A) Single-family residences less than 3,500 square feet not in conjunction with the building of two or more such units;
- (B) Multi-unit structures designed for not more than four dwelling units if not in conjunction with the building of two or more such structures;
- (C) Stores, offices, and restaurants designed for total occupant load of twenty persons or less per structure, if not in conjunction with the building of two or more such structures; and
- (D) Water, sewage, electrical, gas, telephone, and other essential public utility services extensions to serve such structures or facilities; accessory or appurtenant structures including garages, carports, patios, swimming pools, and fences; and, acquisition of utility easements.

Exempt Item Number(s) with Description:

2. Facilities (within existing property boundary, right-of-way, or easement)
 - a. Construction of new pipeline and appurtenances (water mains, service laterals, meters, hydrants, valves, manholes, gauges) for purposes of improving water quality or to meet current fire flow standards with no intention of providing additional capacity for increased development
 - b. Construction of new service laterals/connections
 - c. Construction of temporary emergency water production, transmission, and distribution facilities
 - d. Construction of temporary emergency access roads
 - e. Construction of new fire hydrants
 - f. Construction/installation of filtration and water treatment equipment
 - g. Construction/installation of telephone, telemetering, SCADA, electrical and computer equipment and wiring

Accordingly, the project is exempt from further substantive environmental review requirements under the above stated authorities. Accordingly, the project is exempt from further substantive environmental review requirements under the above stated authorities.

The documentation to support this decision will be on file at the DOH, Environmental Management Division, in Pearl City, Hawaii, and is available for public review upon request.

This notice is hereby given on this 5th day of February 2020, by authorization of Elizabeth A. Char, M.D., Director of Health.

PUBLIC NOTICE
HAWAII DEPARTMENT OF HEALTH
STATE REVOLVING FUND (SRF) LOAN PROGRAM
FINAL ENVIRONMENTAL ASSESSMENT WITH FINDING OF NO SIGNIFICANT IMPACT OR
MITIGATED FINDING OF NO SIGNIFICANT IMPACT
FOR
Kunia Village Potable Water System Upgrades
P-DW303-001
COUNTY OF HONOLULU

DOCKET NO. 21-SDWB-SRF-03

The Hawaii Department of Health (DOH) has conducted an environmental review of the above proposed project and determined that there will be no significant environmental impact.

Project Description:

Replace existing potable distribution lines and install a new booster pump station to address system deterioration and provide adequate pressure to homes and meet current standards.

The following resources were used in DOH's determination:

- Consultation with the DOH Clean Air Branch
- Consultation with the Hawaii State Historic Preservation Division
- Consultation with the US Fish and Wildlife Service
- The Kunia Village Development Corporation report for the Application for Grant-in-Aid from the Hawaii State Legislature 2017
- The Kunia Village Title Holding Corporation Final Environmental Assessment (FEA), per Chapter 343, Hawaii Revised Statutes (HRS)

The DOH agrees with the above references and approves the FEA/FONSI or mitigated FONSI, in accordance with Chapter 343 HRS, Section 11-200-8 of the Hawaii Administrative Rules, 40 CFR §35.3140(b)(3)(i) for CWSRF projects, or 40 CFR §35.3580(c)(3)(i) for DWSRF projects. However, this decision may be reconsidered if a discovery of new information concerning potential environmental impacts of the project occurs.

The documentation to support this decision will be on file at the DOH, Environmental Management Division, in Pearl City, Hawaii, and is available for public review upon request.

This notice is hereby given on this 3rd day of August 2020, by authorization of Bruce S. Anderson, Ph.D., Director of Health.

PUBLIC NOTICE
HAWAII DEPARTMENT OF HEALTH
STATE REVOLVING FUND (SRF) LOAN PROGRAM
EXEMPT PROJECT DETERMINATION
FOR
WATER SYSTEM AUTO READ METER TRANSMITTER REPLACEMENT
P-DW156-0005
HAWAIIAN SHORES COMMUNITY ASSOCIATION (HSCA)
COUNTY OF HAWAII

DOCKET NO. 21-SDWB-SRF-02

The Hawaii Department of Health (DOH) has conducted a review of the proposed project for the HSCA, in accordance with Hawaii's State Environmental Review Process, Chapter 343 of the Hawaii Revised Statutes, Section 11-200-8 of the Hawaii Administrative Rules, and 40 CFR §35.3140 for CWSRF projects, or 40 CFR §35.3580 for DWSRF projects.

Project Description:

In 2011, we purchased 390 auto read water meters and radio transmitters. The Radio transmitters are now starting to fail and we need to replace them. This project will replace 390 radio transmitters in one year and work will be done under force account by our own crews.

DOH has determined that the project is eligible for Exemption under Section 11-200-8(a), HAR, class 2, replacement or reconstruction of existing structures and facilities where the new structure will be located generally on the same site and will have substantially the same purpose, capacity, density height, and dimensions as the structure replaced.

Accordingly, the project is exempt from further substantive environmental review requirements under the above stated authorities. Accordingly, the project is exempt from further substantive environmental review requirements under the above stated authorities.

The documentation to support this decision will be on file at the DOH, Environmental Management Division, in Pearl City, Hawaii, and is available for public review upon request.

FOR
WATER SYSTEM FIRE HYDRANT REPLACEMENT
P-DW156-0004
HAWAIIAN SHORES COMMUNITY ASSOCIATION (HSCA)
COUNTY OF HAWAII

DOCKET NO. 21-SDWB-SRF-01

The Hawaii Department of Health (DOH) has conducted a review of the proposed project for the HSCA, in accordance with Hawaii's State Environmental Review Process, Chapter 343 of the Hawaii Revised Statutes, Section 11-200-8 of the Hawaii Administrative Rules, and 40 CFR §35.3140 for CWSRF projects, or 40 CFR §35.3580 for DWSRF projects.

Project Description:

The water system has 40 fire hydrants that are over 50 years old and in need of replacement. This project will replace 8 fire hydrants each year over a five year period and work will be done under force account by our own crews.

DOH has determined that the project is eligible for Exemption under Section 11-200-8(a), HAR, class 2, replacement or reconstruction of existing structures and facilities where the new structure will be located generally on the same site and will have substantially the same purpose, capacity, density height, and dimensions as the structure replaced.
