

Administrator's Message

October, 2018

Having credible and up to date data on the usage of health care services is essential for planning new health care infrastructure in Hawaii. Fortunately, since 1976, Hawaii's governmental and health care leaders have supported and invested in the state's health care data collection process.

The team at the State Health Planning and Development Agency (SHPDA) is proud to be a part of the system that collects health care utilization data to support affordable, quality health care for our state's 1.4 million residents.

SHPDA's annual Health Care Utilization Report contains data on health care services utilization from public and private health care facilities in Hawaii. This data can assist decision makers in the health care industry and in government with their plans to continue to provide access to quality health care services.

SHPDA is thankful for the efforts of Hawaii's health care facility employees who are tallying, collecting and contributing this vital health care utilization data to support this Agency's function.

The team at SHPDA welcomes your comments and suggestions to improve our 2018 report.

With best regards,

Romala Sue Radcliffe, B.A., M.A.
Administrator
