EMERGENCY SITUATIONS

§ 11-186-96 Repealed. [R 1/21/88]

§ 11-186-97 Repealed. [R 1/21/88]

§ 11-186-98 Repealed. [R 1/21/88]

§ 11-186-99 **Emergency situation.** (a) If an emergency situation is believed to exist, the applicant may file an emergency application for a certificate of need on the form prescribed and furnished by the agency.

(b) For purposes of this section, an emergency situation is a state of affairs involving an actual substantial injury to public health or where there is a clear and present danger of such an injury occurring.

(c) Notwithstanding any other provision of this chapter to the contrary, when the agency determines that the emergency application is complete and before the agency files a decision on the merits of the application, the agency shall make a reasonable effort to consult with and to provide written or oral notification of the application to the chairperson of the statewide council, the chairperson of the review panel, and, in the event that the agency has determined that the application's primary target group is less than the entire population of the State, the chairperson of the appropriate subarea council or countywide review committee, or to an authorized representative of any chairperson.

(d) After consideration of any timely comments or recommendations on the emergency application, the agency shall file a decision on the merits of the application pursuant to section 11-186-70 within ten days after the agency determines that the application is complete. The agency may issue a certificate of need if the agency determines that an emergency situation exists. The agency shall deny the

certificate of need if the agency determines that an emergency situation does not exist, that the proposal is indirectly related to an emergency situation, or that other good cause exists for the denial of the certificate of need.

(e) The decision on the merits of the emergency application in subsection (d) of the section is the final decision of the agency. The decision shall become final upon its filing without an opportunity for any person to request a public hearing for reconsideration of the decision pursuant to section 11-186-82.

(f) Except as provided in section 11-186-10, the agency's denial of a certificate of need under this section is without prejudice to the applicant's right to file a non-emergency application for a certificate of need for the same proposal, on the form prescribed and furnished by the agency. [Eff. 2/9/81; comp

§ 11-186-99.1 Administrative review of certain proposals. (a) The agency may review and approve, conditionally approve, or disapprove certain applications for certificate of need without referring the applications to the subarea council, the review panel, the statewide council, or the countywide review committee.

(b) Projects eligible for administrative review are:

- (1) Bed changes which will have a capital expense of \$1,000,000 or less, and which will have an increased annual operating expense of less than \$500,000;
- (2) Service changes which will have a capital expense of \$1,000,000 or less, and which will have an increased annual operating expense of less than \$500,000;
- (3) Any acquisition of a health care facility or service which will result in lower annual operating expenses for that facility or service;
- (4) Any change of ownership, where the change is from one entity to another substantially

- related entity;
- (5) An additional location of an existing service or facility; or
 - (6) Any proposal which is determined by the agency not to have a significant impact on the health care system.
- (c) An applicant whose proposal meets one or more of the criteria in subsection (b) may submit an application for administrative review and approval.
- (d) The agency shall deny any request for administrative review if it determines that: the application does not meet any of the criteria in subsection (b), or that the public interest will be served by requiring the application to go through the standard review process. Any application which is denied an administrative review under this subsection may be resubmitted by the applicant for review under the standard procedure. A denial of administrative review under this subsection does not constitute a certificate of need disapproval.
- (e) The agency may approve a certificate of need for any application submitted under this chapter if the agency determines that the application meets one or more of the eligibility criteria in subsection (b), and that the application meets the criteria for certificate of need as established in section 11-186-15(a); and that there is no compelling public interest which will be served by requiring the application to go through the standard review process.
- (f) The agency shall disapprove any application submitted under this section if it determines that the application does not meet the criteria for certificate of need established in section 11-186-15(a). The agency shall also disapprove any application for certificate of need, whether it has been submitted for administrative review or standard review, if the application is inconsistent with or contrary to the state health services and facilities plan under section 323D-15, Hawaii Revised Statutes.
- (g) A decision under this section shall become final after the time expires for any person to request a public hearing for reconsideration of the decision pursuant to section 11-186-82.
- (h) Sections 11-186-35 through 11-186-41, 11-186-44 through 11-186-51, and 11-186-70 shall not apply to
