

## Administrator's Message

November 2019

The State Health Planning and Development Agency (SHPDA) is pleased to present this 2018 edition of the Hawaii Health Care Utilization Report.

One of SHPDA's functions is to collect credible and up to date data on the usage of health care services in Hawaii. This data is essential for planning new health care infrastructure in the State of Hawaii

The report contains data on health care utilization from public and private health care facilities in Hawaii. It is our hope that this report can assist decision makers in the health care industry and in government with their plans to continue to provide access to quality health care services for Hawaii's 1.4 million residents.

SHPDA would like to thank Hawaii's health care facilities and their staff for collecting and providing this vital health care utilization data in support of the Agency's functions.

Comments and suggestions for the improvement of this report are most welcome.

Aloha kakou.
