October 2021

Aloha. The State Health Planning and Development Agency (SHPDA) is pleased to present this Hawaii Health Care Utilization Report for the year 2020.

This report contains data on health care utilization from public and private health care facilities in the State of Hawaii. It fulfills one of SHPDA's functions which is to collect up-to-date and credible data on the usage of health care services – data that is essential for planning new health care services and infrastructure in Hawaii.

It is hoped that this report can help decision makers in the health care industry and in government in the development of plans to provide continued access to quality health care services for the people of Hawaii.

We would like to express our gratitude to Hawaii's health care facilities and their staff for providing this vital health care utilization data in support of the Agency's functions.

Finally, we would welcome any comments or suggestions for the improvement of this report.

Mahalo nui loa.
