## Subpart A—General Program Requirements

### § 124.1 Purpose and scope.

(a) [subsection replaced in its entirety]

This part contains state department of health procedures for issuing, modifying, revoking and reissuing, or terminating all RCRA permits governed by chapter 11-270.1. The procedures of this part also apply to denial of a permit for the active life of a RCRA hazardous waste management facility or unit under 40 C.F.R. section 270.29, as incorporated and amended in section 11-270.1-1.

(b) [subsection replaced in its entirety]

Subpart A describes the steps the state department of health will follow in receiving permit applications, preparing draft permits, issuing public notice, inviting public comment, and holding public hearings on draft permits. Subpart A also covers assembling an administrative record, responding to comments, issuing a final permit decision, and allowing for administrative appeal of the final permit decisions. Subpart B contains public participation requirements applicable to all RCRA hazardous waste management facilities.

(c) Part 124 offers an opportunity for public hearings (see § 124.12).

(d) ~~This part is designed to allow permits for a given facility under two or more of the listed programs to be processed separately or together~~ [Subsection is excluded from incorporation; excluded text not reproduced.]

(e) ~~Certain procedural requirements set forth in part 124 must be adopted by States in order to gain EPA approval to operate RCRA, UIC, NPDES, and 404 permit programs.~~ [Subsection is excluded from incorporation; excluded text not reproduced.]

(f) ~~To coordinate decisionmaking when different permits will be issued by EPA and approved State programs~~ [Subsection is excluded from incorporation; excluded text not reproduced.]

### § 124.2 Definitions.

[section replaced in its entirety]

Terms used in this chapter have the meanings given in 40 C.F.R. section 270.2, as incorporated and amended in section 11-270.1-1. Terms not defined have the meaning given by RCRA.

### § 124.3 Application for a permit.

(a) [subsection replaced in its entirety]

(1) Any person who requires a permit under 40 C.F.R. section 270.1, as incorporated and amended in section 11-270.1-1, shall complete, sign, and submit to the director an application. Applications are not required for RCRA permits by rule (40 C.F.R. section 270.60, as incorporated and amended in section 11-270.1-1).

(2) The director shall not begin the processing of a permit until the application has fully complied with the application requirements. See 40 C.F.R. sections 270.10 and 270.13, as incorporated and amended in section 11-270.1-1.

(3) Permit applications must comply with the signature and certification requirements of 40 C.F.R. section 270.11, as incorporated and amended in section 11-270.1-1.

(b) [Reserved]

(c) The director shall review for completeness every application for ~~an EPA-issued permit~~ a permit. Each application for ~~an EPA-issued permit~~ a permit submitted by a new HWM facility, ~~a new UIC injection well, a major PSD stationary source or major PSD modification, or an NPDES new source or NPDES new discharger~~ should be reviewed for completeness by the director within 30 days of its receipt. Each application for ~~an EPA-issued permit~~ a permit submitted by an existing HWM facility (both Parts A and B of the application), ~~existing injection well or existing NPDES source or sludge-only facility~~ should be reviewed for completeness within 60 days of receipt. Upon completing the review, the director shall notify the applicant in writing whether the application is complete. If the application is incomplete, the director shall list the information necessary to make the application complete. When the application is for an existing HWM facility, ~~an existing UIC injection well or an existing NPDES source or "sludge-only facility"~~ the director shall specify in the notice of deficiency a date for submitting the necessary information. The director shall notify the applicant that the application is complete upon receiving this information. After the application is completed, the director may request additional information from an applicant but only when necessary to clarify, modify, or supplement previously submitted material. Requests for such additional information will not render an application incomplete.

(d) If an applicant fails or refuses to correct deficiencies in the application, the permit may be denied and appropriate enforcement actions may be taken under the applicable statutory provision including RCRA section 3008, ~~SDWA sections 1423 and 1424, CAA section 167, and CWA sections 308, 309, 402(h), and 402(k)~~ and section 342J-7, HRS.

(e) If the director decides that a site visit is necessary for any reason in conjunction with the processing of an application, he or she shall notify the applicant and a date shall be scheduled.

(f) The effective date of an application is the date on which the director notifies the applicant that the application is complete as provided in paragraph (c) of this section.

(g) For each application from a major new HWM facility, ~~major new UIC injection well, major NPDES new source, major NPDES new discharger, or a permit to be issued under provisions of § 122.28(c)~~, the director shall, no later than the effective date of the application, prepare and mail to the applicant a project decision schedule. ~~(This paragraph does not apply to PSD permits.)~~ The schedule shall specify target dates by which the director intends to:

- (1) Prepare a draft permit;
- (2) Give public notice;
- (3) Complete the public comment period, including any public hearing; and
- (4) Issue a final permit.

#### ~~§ 124.4 Consolidation of permit processing.~~

#### **§ 124.5 Modification, revocation and reissuance, or termination of permits.**

(a) [subsection replaced in its entirety]

Permits may be modified, revoked and reissued, or terminated either at the request of any interested person (including the permittee) or upon the director's initiative. However, permits may only be modified, revoked and reissued, or terminated for the reasons specified in 40 C.F.R. sections 270.41 and 270.43, as incorporated and amended in section 11-270.1-1. All requests shall be in writing and shall contain facts or reasons supporting the request.

(b) If the Director decides the request is not justified, he or she shall send the requester a brief written response giving a reason for the decision. Denials of requests for modification, revocation and reissuance, or termination are not subject to public notice, comment, or hearings. Denials by the director may be informally appealed to the director by a letter briefly setting forth the relevant facts. ~~The Environmental Appeals Board may direct the Regional Administrator to begin modification, revocation and reissuance, or termination proceedings under paragraph (c) of this section.~~ The appeal shall be considered denied if the director takes no action on the letter within 60 days after receiving it. ~~This informal appeal is, under 5 U.S.C. 704, a prerequisite to seeking judicial review of EPA action in denying a request for modification, revocation and reissuance, or termination.~~

(c) ~~(Applicable to State programs, see 40 CFR 123.25 (NPDES), 145.11 (UIC), 233.26 (404), and 271.14 (RCRA)).~~

(1) [paragraph replaced in its entirety]

If the director tentatively decides to modify or revoke and reissue a permit under 40 C.F.R. section 270.41 or 270.42(c), as incorporated and amended in section 11-270.1-1, he or she shall prepare a draft permit under 40 C.F.R. section 124.6, as incorporated and amended in this chapter, incorporating the proposed changes. The director may request additional information and, in the case of a modified permit, may require the submission of an updated application. In the case of revoked and reissued permits, the director shall require the submission of a new application.

(2) In a permit modification under this section, only those conditions to be modified shall be reopened when a new draft permit is prepared. All other aspects of the existing permit shall remain in effect for the duration of the unmodified permit. When a permit is revoked and reissued under this section, the entire permit is reopened just as if the permit had expired and was being reissued. During any revocation and reissuance proceeding the permittee shall comply with all conditions of the existing permit until a new final permit is reissued.

(3) ~~“Minor modifications” as defined in §§ 122.63 (NPDES), 144.41 (UIC), and 233.16 (404), and~~ “Classes 1 and 2 modifications” as defined in § 270.42 (a) and

(b) ~~(RCRA)~~ are not subject to the requirements of this section.

(d) [subsection replaced in its entirety]

If the director tentatively decides to terminate a permit under 40 C.F.R. section 270.43, as incorporated and amended in section 11-270.1-1, where the permittee objects, the director shall issue a notice of intent to terminate. A notice of intent to terminate is a type of draft permit which follows the same procedures as any draft permit prepared under 40 C.F.R. section 124.6, as incorporated and amended in this chapter.

(e) When [the] state department of health is the permitting authority, all draft permits (including notices of intent to terminate) prepared under this section shall be based on the administrative record as defined in § 124.9.

(f) ~~(Applicable to State programs, see § 233.26 (404).)~~ [Subsection excluded from incorporation; excluded text not reproduced.]

(g) ~~(1) (Reserved for PSD Modification Provisions).~~ [Subsection excluded from incorporation; excluded text not reproduced.]

### § 124.6 Draft permits.

(a) [subsection replaced in its entirety]

Once an application is complete, the director shall tentatively decide whether to prepare a draft permit or to deny the application.

(b) If the Director tentatively decides to deny the permit application, he or she shall issue a notice of intent to deny. A notice of intent to deny the permit application is a type of draft permit which follows the same procedures as any draft permit prepared under this section. See § 124.6(e). If the Director's final decision (§ 124.15) is that the tentative decision to deny the permit application was incorrect, he or she shall withdraw the notice of intent to deny and proceed to prepare a draft permit under paragraph (d) of this section.

(c) ~~(Applicable to State programs, see §§ 123.25 (NPDES) and 233.26 (404).)~~

[Subsection excluded from incorporation; excluded text not reproduced.]

The director shall give notice of opportunity for a public hearing (§ 124.12), issue a final decision (§ 124.15) and respond to comments (§ 124.17). ~~For RCRA, UIC or PSD permits, an appeal may be taken under § 124.19 and, for NPDES permits, an appeal may be taken under § 124.74. Draft permits prepared by a State shall be accompanied by a fact sheet if required under § 124.8. A contested case hearing may be requested as provided in 40 C.F.R. section 124.15, as incorporated and amended in this chapter.~~

The fact sheet shall briefly set forth the principal facts and the significant factual, legal, methodological, and policy questions considered in preparing the draft permit. (c) Any person may submit oral or written statements and data concerning the draft permit. Reasonable limits may be set upon the time allowed for oral statements, and the submission of statements in writing may be required. The public comment period under § 124.10 shall automatically be extended to the close of any public hearing under this section. The ~~hearing officer~~ presiding officer may also extend the comment period by so stating at the hearing.

(d) A tape recording or written transcript of the hearing shall be made available to the public.

### **§ 124.13 Obligation to raise issues and provide information during the public comment period.**

All persons, including applicants, who believe any condition of a draft permit is inappropriate or that the Director's tentative decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, must raise all reasonably ascertainable issues and submit all reasonably available arguments supporting their position by the close of the public comment period (including any public hearing) under § 124.10. Any supporting materials which are submitted shall be included in full and may not be incorporated by reference, unless they are already part of the administrative record in the same proceeding, or consist of State or Federal statutes and regulations, ~~EPA documents~~ EPA or state department of health documents of general applicability, or other generally available reference materials. Commenters shall make supporting materials not already included in the administrative record available to [the] state department of health as directed by the director. (A comment period longer than 30 days may be necessary to give commenters a reasonable opportunity to comply with the requirements of this section. Additional time shall be granted under § 124.10 to the extent that a commenter who requests additional time demonstrates the need for such time.)

### **§ 124.14 Reopening of the public comment period.**

- (a) (1) The director may order the public comment period reopened if the procedures of this paragraph could expedite the decisionmaking process. When the public comment period is reopened under this paragraph, all persons, including applicants, who believe any condition of a draft permit is inappropriate or that the director's tentative decision to deny an application, terminate a permit, or prepare a draft permit is inappropriate, must submit all reasonably available factual grounds supporting their position, including all supporting material, by a date, not less than sixty days after public notice under paragraph (a)(2) of this section, set by the director. Thereafter, any person may file a written response to the material filed by any other person, by a date, not less than twenty days after the date set for filing of the material, set by the director.
- (2) Public notice of any comment period under this paragraph shall identify the issues to which the requirements of § 124.14(a) shall apply.

(3) On his own motion or on the request of any person, the director may direct that the requirements of paragraph (a)(1) of this section shall apply during the initial comment period where it reasonably appears that issuance of the permit will be contested and that applying the requirements of paragraph (a)(1) of this section will substantially expedite the decisionmaking process. The notice of the draft permit shall state whenever this has been done.

(4) A comment period of longer than 60 days will often be necessary in complicated proceedings to give commenters a reasonable opportunity to comply with the requirements of this section. Commenters may request longer comment periods and they shall be granted under § 124.10 to the extent they appear necessary.

(b) If any data information or arguments submitted during the public comment period, including information or arguments required under § 124.13, appear to raise substantial new questions concerning a permit, the director may take one or more of the following actions:

- (1) Prepare a new draft permit, appropriately modified, under § 124.6;
- (2) Prepare a revised statement of basis under § 124.7, a fact sheet or revised fact sheet under § 124.8 and reopen the comment period under § 124.14; or
- (3) Reopen or extend the comment period under § 124.10 to give interested persons an opportunity to comment on the information or arguments submitted.

(c) Comments filed during the reopened comment period shall be limited to the substantial new questions that caused its reopening. The public notice under § 124.10 shall define the scope of the reopening.

(d) [Reserved]

(e) Public notice of any of the above actions shall be issued under § 124.10.

### **§ 124.15 Issuance and effective date of ~~permit.~~ permit; appeal of permits.**

(a) After the close of the public comment period under § 124.10 on a draft permit, the director shall issue a final permit decision (or a decision to deny a permit for the active life of a RCRA hazardous waste management facility or unit under § 270.29). For the purposes of this section, a final permit decision means a final decision to issue, deny, modify, revoke and reissue, or terminate a permit.

(b) A final permit decision (or a decision to deny a permit for the active life of a RCRA hazardous waste management facility or unit under § 270.29) shall become effective 30 days after the service of notice of the decision unless:

- (1) A later effective date is specified in the decision; ~~or~~
- (2) ~~Review is requested on the permit under § 124.19.~~ A written request for a contested case hearing is made within thirty days of the date of issuance of the final permit decision by a person authorized by 40 C.F.R. section 124.15(c), as

incorporated and amended in this chapter, to request a contested case hearing;

(3) No comments requested a change in the draft permit, in which case the permit shall become effective immediately upon issuance.

(c) After the issuance of a final permit decision, a contested case hearing may be requested in writing by:

(1) The permittee whose permit has been modified, or revoked and reissued, or terminated;

(2) The person whose application for a permit has been denied; and

(3) Any person whose legal rights, duties, or privileges will be specially, personally, and adversely affected by the permit decision and who has participated as an adversary during the public comment period or public hearing in the manner provided by 40 C.F.R. sections 124.11 to 124.14, as incorporated and amended in this chapter.

#### **§ 124.31 Pre-application public meeting and notice.**

(a) [subsection replaced in its entirety]

Applicability. The requirements of this section shall apply to all RCRA part B applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to RCRA part B applications seeking renewal of permits for such units, where the renewal application is proposing a significant change in facility operations. For the purposes of this section, a “significant change” is any change that would qualify as a class 3 permit modification under 40 C.F.R. section 270.42, as incorporated and amended in section 11-270.1-1. The requirements of this section do not apply to permit modifications under 40 C.F.R. section 270.42, as incorporated and amended in section 11-270.1-1, or to applications that are submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

(b) Prior to the submission of a part B RCRA permit application for a facility, ~~or to the submission of a written Notice of Intent to be covered by a RCRA standardized permit (see 40 CFR part 270, subpart J),~~ the applicant must hold at least one meeting with the public in order to solicit questions from the community and inform the community of proposed hazardous waste management activities. The applicant shall post a sign-in

sheet or otherwise provide a voluntary opportunity for attendees to provide their names and addresses.

(c) The applicant shall submit a summary of the meeting, along with the list of attendees and their addresses developed under paragraph (b) of this section, and copies of any written comments or materials submitted at the meeting, to the permitting agency as a part of the part B application, in accordance with 40 CFR 270.14(b), ~~or with the written Notice of Intent to be covered by a RCRA standardized permit (see 40 CFR part 270, subpart J).~~

The notice must be published as a display advertisement.

(ii) A visible and accessible sign. The applicant shall post a notice on a clearly marked sign at or near the facility, fulfilling the requirements in paragraph (d)(2) of this section. If the applicant places the sign on the facility property, then the sign must be large enough to be readable from the nearest point where the public would pass by the site.

(iii) A broadcast media announcement. The applicant shall broadcast a notice, fulfilling the requirements in paragraph (d)(2) of this section, at least once on at least one local radio station or television station. The applicant may employ another medium with prior approval of the Director.

(v) The name, address, and telephone number of a contact person for the applicant.

### **§ 124.32 Public notice requirements at the application stage.**

(a) [subsection replaced in its entirety]

Applicability. The requirements of this section shall apply to all RCRA part B applications seeking initial permits for hazardous waste management units. The requirements of this section shall also apply to RCRA part B applications seeking renewal of permits for such units under 40 C.F.R. section 270.51, as incorporated and amended in section 11-270.1-1. The requirements of this section do not apply to permit modifications under 40 C.F.R. section 270.42, as incorporated and amended in section 11-270.1-1, or to permit applications that are submitted for the sole purpose of conducting post-closure activities or post-closure activities and corrective action at a facility.

(1) The Director shall provide public notice as set forth in § 124.10(c)(1)(ix), and notice to appropriate units of State and local government as set forth in § 124.10(c)(1)(x), that a part B permit application has been submitted to the state department of health and is available for review.

### **§ 124.33 Information repository.**

(a) [subsection replaced in its entirety]

Applicability. The requirements of this section apply to all applications seeking RCRA permits for hazardous waste management units.

(b) The Director may assess the need, on a case-by-case basis, for an information repository. When assessing the need for an information repository, the Director shall consider a variety of factors, including: the level of public interest; the type of facility; the presence of an existing repository; and the proximity to the nearest copy of the administrative record. If the Director determines, at any time after submittal of a permit application, that there is a need for a repository, then the Director shall notify the facility that it must establish and maintain an information repository. (See 40 CFR 270.30(m) for similar provisions relating to the information repository during the life of a permit).

- (c) The information repository shall contain all documents, reports, data, and information deemed necessary by the Director to fulfill the purposes for which the repository is established. The Director shall have the discretion to limit the contents of the repository.
- (d) The information repository shall be located and maintained at a site chosen by the facility. If the Director finds the site unsuitable for the purposes and persons for which it was established, due to problems with the location, hours of availability, access, or other relevant considerations, then the Director shall specify a more appropriate site.
- (e) The Director shall specify requirements for informing the public about the information repository. At a minimum, the Director shall require the facility to provide a written notice about the information repository to all individuals on the facility mailing list.
- (f) The facility owner/operator shall be responsible for maintaining and updating the repository with appropriate information throughout a time period specified by the Director. The Director may close the repository at his or her discretion, based on the factors in paragraph (b) of this section.
