Renee Storm Pearson, Ph.D.

The University of Hawaii at Manoa  
Speech Department

Contract by:

Hawaii Department of Health  
Alcohol and Drug Abuse Division  
601 Kamokila Boulevard, Room 360  
Kapolei, Hawaii 96707

2004

## ACKNOWLEDGMENTS

Many people have contributed to this project. Elaine Wilson, Chief of Alcohol and Drug Abuse Division, has provided invaluable guidance and input through every stage of this project for more than a decade. Her contribution has greatly impacted the quality of the data, as well as the usefulness of the reports. Elaine's leadership has assisted in the dissemination of the results, which has allowed communities to take effective action toward the betterment of adolescent health. Gratitude is extended to Margaret Min Hua, Virginialee Jackson, and Jan Nishimura who assured the quality of the reports by carefully proofreading the final manuscript.

The project would not have been successful without the assistance of various people from the Department of Education. Each participating school had at least one staff member or teacher assigned as the contact person. These people played a crucial role in coordinating the project at the school level. A big mahalo is extended to each of the teachers who gave up valuable class time to allow the students to participate in the statewide survey effort.

Several individuals from the University of Hawaii provided needed assistance and technical support throughout the project. Dr. Cailin Kulp, Doug Raphael, and Ann Krawciw all played vital roles during data collection – their leadership, expertise, positive spirit, and willingness to work long hours were greatly appreciated. Colleen Young, from the College of Arts and Humanities, was always available to offer budgetary expertise, as well as to provide moral support at numerous junctures in the project. Shi-Jen He and Andrew Ovenden provided a much needed service in developing and testing the weights used in the data analysis. Appreciation is also extended to the University of Hawaii Computing Center for processing the surveys and Helen Carey who did an outstanding job developing the programs for the individual school reports.

A special note of thanks is given Dr. Charolette Sykora and Rosemary Crescitelli who put in endless hours checking the data and proofreading the report. Finally, extreme gratitude is extended to Benjamin Pearson who not only assisted in proofreading the entire report, but who also provided me with the necessary emotional support needed to work long hours to complete this project.

## ABBREVIATED TABLE OF CONTENTS

<i>Detailed Contents</i> .....	iv
<i>List of Tables</i> .....	ix
<i>List of Figures</i> .....	xvi
<i>Chapter 1</i> <b>Introduction</b> .....	1
<i>Chapter 2</i> <b>Overview of Key Findings</b> .....	5
<i>Chapter 3</i> <b>Study Design and Procedures</b> .....	29
<i>Chapter 4</i> <b>Prevalence of Substance Use</b> .....	57
<i>Chapter 5</i> <b>Trends in Substance Use</b> .....	135
<i>Chapter 6</i> <b>Treatment Needs and Utilization of Treatment Facilities</b> .....	249
<i>Chapter 7</i> <b>Onset of Substance Use</b> .....	315
<i>Chapter 8</i> <b>Attitudes and Beliefs About Alcohol, Tobacco, and Other Drugs</b> .....	333
<i>Chapter 9</i> <b>The Social Milieu</b> .....	377
<i>Chapter 10</i> <b>Prevalence of Antisocial Behaviors</b> .....	419
<i>Chapter 11</i> <b>Risk and Protective Factors</b> .....	459
<i>Appendix A</i> <b>The 2003 Hawaii Student Alcohol, Tobacco, and Other Drug Use Survey</b>	537
<i>Appendix B</i> <b>2003 Survey Data Weighting Procedures</b> .....	549
