

# **ATR Ohana Provider Directory**

(Updated October 15, 2012)

## **INTRODUCTION:**

A great deal of information about Hawaii's Access to Recovery (ATR Ohana) Project, about the services available through ATR Ohana, and about agencies in the ATR Ohana service provider network is provided in the ATR Ohana Provider Directory. When information provided in the ATR Ohana Provider Directory becomes outdated, updates to the ATR Ohana Provider Directory will be posted on the ATR Ohana website as promptly as possible. Information contained in the ATR Ohana Provider Directory is provided by the ATR Ohana network, and is only as accurate as the updates received from the individual provider agency. The ATR Ohana Provider Directory is available for download from the Hawaii Department of Health Alcohol and Drug Abuse Division (ADAD) ATR Ohana website at <http://hawaii.gov/health/substance-abuse/ATR/index.html>.

Funding for the Hawaii ATR Ohana Project, under which the ATR Ohana Provider Directory was developed, has been provided by the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration (SAMHSA) Center for Substance Abuse Treatment (CSAT) Access to Recovery (ATR) Grant. The information provided in the ATR Ohana Provider Directory is considered public domain, and may be reprinted without permission from ATR Ohana. When referencing information reprinted from this document, acknowledgement of the source of the citation is appreciated. Inclusion of agency information in the ATR Ohana Provider Directory is not intended to endorse or promote the agencies listed.

This collection of information about authorized ATR Ohana providers is intended to facilitate connections between individuals, family members, and others seeking assistance. Others who may find this resource helpful include social service workers seeking to identify treatment and recovery support options for their clients and for agencies in the ATR Ohana network of providers. ATR Ohana provides this information to promote collaboration among the many individuals, agencies, and stakeholders in Hawaii's recovery-oriented system of care.

The ATR Ohana Provider Directory includes a table of contents that lists sections and sub-heading used in the ATR Provider Manual and identifies the page on which the first reference to that information is listed. The body of the ATR Ohana Provider Directory is comprised of two (2) sections of reference information. Information in the reference sections of the ATR Ohana Provider Directory has been supplied by the agencies listed, is as accurate as the timely submission of the information from the agency, and has been arranged alphabetically for consistency.

## **SECTION 1 – SERVICE LIST**

Section 1 lists the ATR Ohana services currently authorized along with a general description of each service. Following each service description is a list of agencies currently authorized to provide that service to ATR Ohana clients.

## **SECTION 2 – PROVIDER LIST**

Section 2 lists the agencies currently authorized to provide services to ATR Ohana clients in alphabetical order. Following the agency information is a list of the ATR Ohana service categories currently authorized for that agency. In cases where a business may have another title, particularly when the alternate name of the agency is significantly different than their legal business name, both listings were included in Section 2. The intent is to increase the likelihood that clients will more easily find the agency they are seeking.

ATR Ohana enrollment is available **ONLY** through ATR Ohana Assessor agencies. All ATR Ohana services must be accessed **AFTER** enrollment through the ATR Ohana Assessor agency. Open enrollment is available when the agency information is in **BLACK**. Maximum enrollment has been reached when the agency information is in **RED**.

Additional eligibility criteria, enrollment guidelines, and information about ATR Ohana Project is listed on the ATR Ohana website.

Funding limits for ATR Ohana also limit the number of clients that can be enrolled in, and served by, agencies in the ATR Ohana network. When ATR Ohana funds assigned to an individual agency are fully spent, the agency information will be shown in **RED** to signify that the agency is “at capacity” for ATR Ohana. Agencies whose listing in the ATR Ohana Provider Directory may be able to serve clients through other funding sources, in addition to ATR Ohana. A **RED** listing in the ATR Ohana Provider Directory only signifies that the agency is not currently able to accept new ATR Ohana clients for the indicated ATR Ohana service(s).

### **To enroll in ATR Ohana, please contact an ATR Ohana Assessor.**

The Assessor agency is the “gatekeeper” for ATR Ohana. Assessors assure that individuals interested in ATR Ohana are eligible to be enrolled, and understand the ATR Ohana grant mandates and expectations for their enrollment in ATR Ohana funded services. Individuals who choose to enroll in ATR Ohana services must be eligible for participation under SAMHSA CSAT’s guidelines for the ATR Grant.

ATR Ohana Assessors are authorized to provide **ONLY** Assessor services to ATR Ohana clients for the ATR Ohana Project. All other ATR Ohana funded services are provided by other agencies in the ATR Ohana network of providers.

Other non-ATR Ohana services may be available at the agencies listed in this Directory, including Assessor agencies. Individuals enrolled in ATR Ohana are encouraged to ask their Assessor and other ATR Ohana provider staff about the other services provided by the agency that are funded by other means outside of the ATR Ohana Project. ATR Ohana is considered a “payer of last resort.” Individuals who may be eligible for services

similar to those provided by ATR Ohana must exhaust other resources available to them prior to using ATR Ohana funded services.
