Med-QUEST Update

MQD will be going through its Provider List. If a provider has been found to be inactive for an extended period of time, they will be receiving a letter from MQD that states they intend to close their eligibility to be a Med-Quest Provider. This is important as it will affect some of the SUD providers that are presently working with us. If you see this letter come in, please address it quickly as it is time sensitive. MQD expects to send out a mass mail out in the next 2 months if not sooner.

Further questions: Lgreen2@dhs.hawaii.gov

ADAD Rate Study Update

ADAD is preparing to embark on a Rate Study. As a result, we need some information from your agency. We hope to start further communications with you later this month.

Email me if you have further questions.

WITS User Interface (Training Site Only)

The screenshot displays the WITS User Interface (Training Site Only). The top header shows the WITS logo (20.8.0), navigation links for SSRS Reports and Snapshot, and user information for Val Hewitt at Agency 1, Facility A.

The main content area is divided into two sections. The left section, labeled "Left Navigation", contains a sidebar with icons for Home Page, Agency, Group List, Clinical Dashboard, Client List, System Administration, Reports, and Support Ticket. The right section, labeled "Client List", shows the profile for FOX, Juniper (30 years old, Female, DOB 2/24/1990, CASE # 1, UNIQUE CLIENT ID J683480SJ973564) and a list of clients.

The "Client List" section includes a "Client Search" form with fields for Facility, First Name, Last Name, and Unique Client Number, and buttons for Search, Advanced Search, and Clear. Below the search form is a "Client List" table with columns for FULL NAME, UNIQUE CLIENT #, and SSN. The table lists three clients: T2 (24279, Test, 6/1/1988, Male), AA (ASLAM, Atif, 12/21/1994, Female), and LB (BROWN, Leroy, 8/15/1986, Male). A red box highlights the "Add Client" and "Export" buttons, labeled "Function Links".
