CERTIFIED NO: 7011 0110 0002 1803 7790

Mr. Richard Takaba
Hawaii State Department of Health
Environmental Management Division
Solid and Hazardous Waste Branch
Underground Storage Tank Section
919 Ala Moana Boulevard, Room 212
Honolulu, HI 96814

Dear Mr. Takaba:

SUBJECT: RED HILL TANK COMPLEX
SOIL VAPOR SAMPLING RESULTS FOR APRIL 16, 2014
DOH FACILITY ID NO. 9-102271
DOH RELEASE ID NO. 990051, 010011, 020028, AND 140010

Soil vapor samples were collected from beneath Red Hill Tanks 5, 6, 7, and 8 on April 16, 2014.

Soil vapor samples were analyzed in the field for VOC concentrations using a photo-ionization detector. The soil vapor sampling results are being submitted as Enclosure 1.

A conservative approach is to assess the integrity of the associated tank system if VOC concentrations exceed 280,000 ppbv in soil vapor monitoring probes beneath tanks containing JP-5 or JP-8, or 14,000 ppbv in soil vapor monitoring probes beneath tanks containing marine diesel fuel. These values are 50 percent of the calculated vapor concentration from fuel-saturated water.

Soil vapor VOC concentrations detected at Tanks 5, 6, 7, and 8 during this sampling event were consistent with concentrations detected during the April 3 and 7, 2014 sampling events. Concentrations of VOCs detected in the front, middle, and outer edge soil vapor monitoring probes at Tank 5 were 106,000 ppbv, 437,000 ppbv, and 398,000 ppbv, respectively.

Between the March 21 and April 7, 2014 sampling events, Tank 5 was being vented. Increases in concentrations of VOCs at Tank 5 and nearby tanks coincide with the venting of Tank 5; therefore, the two actions may be related.

5090
Ser N45/307
April 21, 2014

The next event is tentatively scheduled for the week of April 21, 2014, and will include collecting samples from soil vapor monitoring probes beneath all active and accessible tanks.

If there are any questions regarding this matter, or if more information is needed, please contact Ms. Raelynn Kishaba at (808) 471-1171, extension 233.

Sincerely,

AARON V. POENTIS
Director
Regional Environmental Department
By direction of the
Commander

Enclosure: 1. Summary of Soil Vapor Sampling Results for Tanks
5, 6, 7, and 8 through April 16, 2014 (8 pages)
