Dear Ms. Kwan:

**SUBJECT: TANK 5 QUARTERLY RELEASE RESPONSE REPORT, JULY 7, 2022  
RED HILL BULK FUEL STORAGE FACILITY  
DOH FACILITY ID NO. 9-102271, DOH RELEASE ID NO. 140010**

Commander Navy Region Hawaii letter 5090 Ser N45/044, dated January 23, 2014 provided notification of a confirmed release of JP-8 from Tank 5 at the Red Hill Bulk Fuel Storage Facility. In accordance with the Hawaii Administrative Rules 11-280.1-65.2, the Navy is submitting a quarterly release response report with CD (Enclosures 1 and 2) to notify the DOH of actions taken between March 2022 and June 2022 in response to the January 2014 release at the Red Hill underground storage tank site.

Results of groundwater sampling and analysis are inconclusive as to effects attributed to the 2014 release of JP-8 from Tank 5 due to the recent May 6, 2021 pipeline breach that occurred in the tunnel and the November 20 release from a fire suppression drain line. Additional supplemental monitoring is ongoing at the Red Hill Facility in response to the recent releases. So, the recommendation going forward is to incorporate these actions in a combined monitoring program and quarterly release response report.

If there are any questions regarding this matter or if more information is needed, please contact Ms. Susan Lohr at [susan.c.lohr.civ@us.navy.mil](mailto:susan.c.lohr.civ@us.navy.mil).

Sincerely,
