Amendment 3 to the IUP for SFY 2017

The *Intended Use Plan for SFY 2017* has been amended to meet the requirement of using ten percent of the funds available in the capitalization grant to eligible recipients in accordance with FFY 2016 Appropriations Act.

I. Introduction

Hawaii's Water Pollution Control Revolving Fund (commonly referred to as the Clean Water State Revolving Fund or CWSRF) provides low interest loans to Hawaii's four counties to construct high priority wastewater, stormwater, and non-point source projects. Since its establishment in 1991, the program has issued over \$759.4 million in low interest loans, providing significant savings in interest costs to the counties.

Each year the CWSRF Program is required to prepare an Intended Use Plan (IUP) as part of its request to EPA for an annual capitalization grant. The IUP sets program goals, identifies the intended use of federal and state funds to be provided during the year, and describes how the program will meet requirements of the Federal Fiscal Year (FFY) 2016 Appropriations Act.

II. FFY 2016 Project Funding Requirements and Project Selection

Hawaii is expected to receive a federal capitalization grant of \$10,348,000 under the FFY 2016 Appropriations Act. The following requirements apply:

1. American Iron and Steel (AIS): Funds made available from the CWSRF may not be used for a project for the construction, alteration, maintenance, or repair of treatment works unless all of the iron and steel projects used in the project are produced in the United States.
2. Fiscal Sustainability Plan (FSP): For applicable CWSRF projects involving repair, replacement, or expansion of a publicly owned treatment works, the recipient of a loan shall develop and implement a FSP or certify that the recipient has developed and implemented a FSP that includes:
 - a. an inventory of critical assets that are a part of the treatment works;
 - b. an evaluation of the condition and performance of inventoried assets or asset groupings;
 - c. a certification that the recipient has evaluated and will be implementing water and energy conservation efforts as part of the plan; and
 - d. a plan for maintaining, repairing, and, as necessary, replacing the treatment works and a plan for funding such activities.
3. Cost and Effectiveness Analysis: For applicable CWSRF projects, the recipient of a loan shall certify that the recipient:

- a. has studied and evaluated the cost and effectiveness of the processes, materials, techniques, and technologies for carrying out the proposed project or activity for which assistance is sought under this title; and
- b. has selected, to the maximum extent practicable, a project or activity that maximizes the potential for efficient water use, reuse, recapture, and conservation, and energy conservation, taking into account –
 - i. the cost of constructing the project or activity;
 - ii. the cost of operating and maintaining the project or activity over the life of the project or activity; and
 - iii. the cost of replacing the project or activity.

4. Green Project Reserve (GPR): To the extent that there are sufficient eligible project applications, not less than 10% of the capitalization grant shall be used by the state for projects to address green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities. This amounts to a minimum of \$1,034,800 to be allocated to the GPR. Table 1 shows how this requirement will be met.

5. Davis-Bacon: The Davis-Bacon Act shall apply to any construction of treatment works carried out in whole or in part with assistance made available by the CWSRF. The Hawaii CWSRF Program will continue to implement Davis-Bacon requirements with the exception provided by the *Class Deviation - Prevailing Wage Interview Requirement in Clean Water and Drinking Water State Revolving Funds (CWSRF and DWSRF) Capitalization Grants* memorandum of November 16, 2012. This waives the requirement for wage interviews to be conducted within the first two weeks of the start of construction.

6. Reporting: The CWSRF Program will continue its quarterly reporting in the CWSRF Benefits Reporting (CBR) system. Reporting will be done on GPR, Federal Funding Accountability and Transparency Act (FFATA) requirements, and environmental benefits from new projects per the EPA Order on Environmental Benefits. This information will also be included in the Annual Report, as well as the "two-pager" reports on environmental benefits.

7. Cash Draw Ratio: In accordance with EPA Office of Water Memorandum 13-04 (September 30, 2013), the CWSRF will deposit and disburse state match funds (or an equivalent amount of non-federal funds) prior to drawing any funds from the federal capitalization grant. After all state match funds (or an equivalent amount of non-federal funds) have been disbursed, the CWSRF may draw funds from the capitalization grant at a ratio of 100% of the disbursement amount.

8. Other Federal Requirements: Many federal requirements apply in an amount equal to the capitalization grant. These requirements are:

- Single audit Act (OMB A-133)
- Disadvantaged Business Enterprise (DBE) compliance
- Federal environmental crosscutters

9. Disadvantaged Communities: Congress has requested that states direct subsidies to disadvantaged communities. In the past, the CWSRF has funded projects such as the closure of large capacity cesspools servicing relatively low-income or sparsely populated areas and will continue to do so.

10. Affordability Criteria: The Hawaii CWSRF program established its affordability criteria by the September 30, 2015. The affordability analysis included the applicant's income, unemployment data, population trends, and other data determined relevant by the CWSRF program. The affordability criteria will not singly determine nor guarantee whether the CWSRF program will enter into a binding commitment for an additional subsidization with an applicant.

11. Signage: From the FFY 2015 SRF capitalization grant and each year thereafter, the CWSRF program must comply with EPA's SRF Signage Guidelines in order to enhance public awareness of EPA assistance agreements nationwide. The CWSRF program will ensure compliance of EPA's Signage policy is met for SFY 2017.

12. Additional Subsidy: No additional subsidy commitments will be made by the Hawaii CWSRF program under the Water Resources Reform and Development Act (WRRDA) for SFY 2017. However, the CWSRF program agrees to use ten percent of the capitalization grant, which will be in the amount of \$1,034,800, to provide additional subsidy funds in accordance with the FFY 2016 Appropriations Act.

In order to promote GPR projects, additional subsidy in the amount of \$1,034,800 will be awarded to the North Kona Sewer and Effluent Reuse – Phase I Project.

Table 1 lists projects that Hawaii plans to fund in SFY 2017. Although other projects may have a higher ranking, those projects are not ready to proceed at this time.

Table 1: CWSRF Projects to be Funded in SFY 2017

Project No., Subrecipient, Project, and Description	Rank	Planned Binding Commitment	Estimated Loan Amount	GPR	FFATA
<u>51-76, Honolulu-BWS</u> <i>Honouliuli Water Recycling Facility R-1 Pre-Treatment and UV Disinfection Improvements:</i> Install a new UV system to reduce energy demand.	11	7/15/16	\$6,333,482	\$6,333,482 energy efficiency	
<u>59-23, Kauai</u> <i>Hanama'ulu and Kapaia SPS Renovations:</i> Replace with high efficiency pumps and expand the capacity.	40	7/15/16	\$3,000,000	\$3,000,000 energy efficiency	
<u>NPS 48-01, Honolulu-FM</u> <i>Ala Wai Golf Course Access Road and Parking Lot Improvements - NPDES Small MS4 Permit Program:</i> Manage and improve storm water quality.	4	7/15/16	\$3,482,218		
<u>80-35, Hawaii</u> <i>Kealahou Wastewater Treatment Plant R-1 Upgrade:</i> Upgrade to produce R-1 water.	22	8/15/16	\$6,900,000	\$6,900,000 water reuse	
<u>62-37, Hawaii</u> <i>Pua Sewage Pump Station - Pump Replacement:</i> Renovate existing facility to maintain the design capacity.	57	9/15/16	\$2,700,000		
<u>54-44, Maui</u> <i>Napili No. 5 and 6 Force Main Replacement:</i> Replace force main to comply with 1999 consent decree.	51	9/15/16	\$3,200,000		
<u>54-31, Maui</u> <i>Hawaiian Homes Force Main Replacement:</i> Replace force main to comply with 1999 consent decree.	73	10/15/16	\$2,240,000		
<u>54-22, Maui</u> <i>Lahaina Wastewater Reclamation Facility Modifications, Stage 1A:</i> Upgrade the facility to allow required maintenance activities and restore 9.0 mgd capacity.	17	12/15/16	\$17,000,000	\$17,000,000 energy efficiency	\$10,348,000
<u>48-07 Honolulu-ENV</u> <i>Sand Island WWTP - UV Disinfection and Effluent Pump Station Odor Control System:</i> Construct a new odor control system.	32	6/15/17	\$10,000,000		
		TOTAL	\$54,855,700	\$33,233,482	\$10,348,000

III. Long and Short Term Goals

The Hawaii CWSRF Program has developed long and short term goals, listed in Tables 2 and 3, respectively.

Table 2: Long-Term Goals
<ol style="list-style-type: none">1. Provide financial assistance for eligible projects that protect Hawaii's public health; correct surface water quality impairment; eliminate or prevent ground water contamination; control point and non-point pollution sources; promote water reuse, energy efficiency and sustainability; and achieve compliance with federal and state water quality standards.2. Ensure fiscal soundness and perpetuity of the CWSRF.

Table 3: Short-Term Goals
<ol style="list-style-type: none">1. Promote water reuse, energy efficiency and/or other innovative environmental projects.2. Reduce EPA unliquidated loan obligations (ULOs).3. Provide loans with competitive interest rates while still assuring the program's perpetuity.4. Revisit standard operating procedures to improve program efficiency.

IV. Project Eligibility and Selection

CWSRF project funding is only available for public facilities and systems owned by a state or county government agency. Projects eligible for funding must be listed on the current Project Priority List (Appendix B). All projects scheduled for CWSRF funding will be reviewed for consistency with appropriate plans developed under Sections 208, 303(e), and 419 of the Act. Table 4 shows types of projects eligible for CWSRF funding.

Table 4: Projects Eligible for CWSRF Funding

1. Point Source Projects
 - a. New, expanded, or rehabilitated wastewater treatment plants.
 - b. Publicly-owned water reuse systems and distribution lines.
 - c. New or rehabilitated collector, trunk, and interceptor sewers.
 - d. Sludge reuse, treatment, and disposal facilities.
 - e. Septage handling, marine vessel pump out, and treatment facilities.

2. Non-Point Source (NPS) Projects
 - a. Watershed planning/assessment or implementation of projects needed to restore NPS impaired waters.
 - b. Cesspool replacement with septic tanks, aerobic units, constructed wetlands or treatment plants.
 - c. Equipment purchase of street sweepers and catch basin vacuum vehicles, sediment traps and basins.
 - d. Capping and closure of municipal solid waste landfills, landfill reclamation, landfill leachate collection, storage and treatment, and landfill gas collection and control systems.
 - e. Brownfield projects involving site assessments, underground storage tank removal and disposal, contaminated soil or sediment removal and disposal, capping wells, soil remediation, controlling stormwater runoff, and monitoring groundwater and surface water for contaminants.

Project selection is based on the project’s priority ranking as well as its readiness to proceed. Hawaii’s project ranking system, shown in Appendix A, assigns points to potential projects based on various criteria such as whether a project corrects surface water quality impairment, results in energy efficiency, water efficiency, or achieves compliance with a federal or state enforcement issue.

Points for each project are totaled and a *Project Priority List* is compiled (Appendix B) listing projects in the order of highest to lowest priority. However, a significant factor in project selection is the project’s readiness to proceed. If a project is high in priority but not ready to commence, it may be bypassed.

V. Loan Policies

Projects selected for funding are financed based on the useful life of the project or 30 years, whichever is less. The CWSRF may provide Programmatic Financing loans to interested Counties. If there are sufficient CWSRF funds, 100% of eligible project costs are financed. Projects are subject to an annual interest rate of 0.25% and a semi-annual loan fee of 0.375%. This results in a total loan rate of about 1% which remains fixed over the life of the loan. At the

end of each state fiscal year, current rates are evaluated to determine if adjustments are needed.

VI. Financial Management

Table 5 shows projections for SFY 2017 sources and uses of funds. Included in the fund sources are loan fees which are classified as either "program" or "non-program." *Program fees* cover activities directly related to administering the CWSRF Program such as issuing and servicing loans, engineering support, financial and legal consultation, and reimbursement for relevant services provided by the State.

As allowed in accordance with the Federal Water Pollution Control Act (FWPCA) section 603(d)(7), the CWSRF Program will be utilizing 1/5 percent per year of the current valuation of the fund to cover administrative expenses for Program activities. The current valuation of the fund is \$482,225,646.00. For SFY 2017, the CWSRF Program plans to use \$964,400 from the fund to cover activities directly related to administering the CWSRF Program.

Non-program fees cover various water quality program activities, including operation and maintenance inspections of wastewater pollution control facilities (45%), the recycled water program (5.5%), the bio-solids program (11%), oversight of commercial animal feeding and processing operations (5.5%), and other water quality program activities (33%).

For SFY2017, \$315,000 is projected to fund EPA in-kind services for the development of a FOCUS cashflow model and implementation of management study recommendations and Loans & Grants Tracking System by Northbridge Environmental Management Consultants.

Table 5: Sources and Uses of 2017 Funds	
SFY 2017 Projected Fund Sources	
Federal Capitalization Grant, FFY 2016	10,348,000
State Match of 20% projected for Feb. 2017	2,069,600
Loan funds available, end of SFY 2016	12,417,600
Loan repayments	29,729,300
Investment Interest	606,200
Program Fees	0
Non-Program Fees	1,410,800
1/5 % of Net Assets	964,400
Total Sources	57,545,900
SFY 2017 Projected Uses	
Executed Loans	54,855,700
EPA in-kind services	315,000
Administrative Expenses	2,375,200
Total Uses	57,545,900

Table 6 shows the capitalization grant payment and disbursement projections based on a grant award date of October 2016, and a state match date of March 2017.

Table 6: Capitalization Grant Payments and Disbursements				
FFY	Quarter	Period	Application for EPA Payments	ASAP Draws
2017	1	Oct. - Dec. 2016	10,348,000	0
2017	2	Jan. - Mar. 2017	0	0
2017	3	Apr. - Jun. 2017		10,348,000

2018	2	Jan. - Mar. 2018	0	0
2018	3	Apr. - Jun. 2018	0	0
2018	4	Jul. - Sep. 2018	0	0
		TOTAL	10,348,000	10,348,000

Note: ASAP is the Automated Standard Application for Payments.

VII. Other Requirements of the Act

The following commitments are intended to meet specific requirements of the Act:

1. Section 602(a) - Environmental Reviews: The State of Hawaii (State) will oversee environmental reviews as provided in *Hawaii Revised Statutes, Chapter 343, Environmental Impact Statements* and as outlined in *A Guidebook for the Hawaii State Environmental Review Process*. These procedures were adopted and outlined in the Operating Agreement and the Policy for Implementing the State Revolving Fund, as agreed upon by the Department and EPA.
2. Section 602(b)(2) - State Matching Funds: The State agrees to deposit into the CWSRF from state monies an amount equal to 20 percent of the amount of each EPA grant payment on or before the date on which the State receives each grant award payment.
3. Section 602(b)(3) - Binding Commitments: The State will enter into binding commitments for 120 percent of each quarterly payment within one year after receipt of each quarterly payment.
4. Section 602(b)(4) - Expeditious and Timely Expenditures: The State will expend all funds in the CWSRF in a timely and expeditious manner.
5. Section 602(b)(7) - State Laws and Procedures: The State agrees to expend each quarterly grant payment in accordance with its laws and procedures.
6. Consistency with Planning: The State agrees that it will not provide assistance to any project unless that project complies with all agreements and is consistent with plans developed under Sections 208, 303(e), 319, or 320 of the Act.
7. National Reporting Needs: The State agrees to provide data or information to EPA as required for national reports and Congressional or public inquiries.

**APPENDIX A
CWSRF PROJECT RANKING CRITERIA**

HAWAII DEPARTMENT OF HEALTH PRIORITY SYSTEM POLICIES

I. General Policy

The State priority system describes the criteria and method used to rank wastewater pollution control projects considered eligible for SRF funding assistance. The Department of Health (DOH) gives high priority to projects protecting water quality and contributing to the Green Project Reserve and/or sustainability issues such as water reuse, energy efficiency, renewable energy, and environmentally innovative technologies. DOH also funds projects to achieve compliance with enforcement issues and considers the need for the project.

II. Project Priority List and Project Selection

The loan applicant submits a *Proposed Project for SRF Funding Form* (Form D-1) for each new project to be considered for funding. The applicant provides a project description and checks off all criteria applicable to the project. Each criterion is assigned a specific number of points. Points for each project are totaled and eligible projects are compiled into a *Project Priority List* in the order of the project's ranking, with highest priority going to those projects with the highest number of points.

Generally, proposed projects will be prioritized in the following order:

1. Water quality protection projects that correct surface water quality impairment or eliminate/prevent ground water contamination.
2. Green projects which promote water reuse, energy efficiency, renewable energy, sludge reuse, sustainable infrastructure, and/or environmentally innovative technologies.
3. Enforcement-related projects which are necessary to achieve compliance with a federal or state compliance issue, consent decree, or court order.
4. Project need is also considered. Points are awarded for secondary treatment, sewer rehabilitation, non-point source issues, and stormwater management.

Project selection is based on the project's ranking, the project's readiness to proceed to construction, and the amount of funds available for the particular fiscal year. If additional SRF funds are available later in the fiscal year, projects are selected for funding from the current *Project Priority List*. A project on the list may be bypassed if the project is not ready to proceed when the funding is available.

III. Ranking Projects with an Equal Number of Points

In the event that two or more projects have the same number of points, project selection will be based on the following tie-breaking criteria:

1. First criterion: Priority given to the project whose county has not had an SRF project selected for funding. If this applies to more than one county, the second criterion will be used.
2. Second criterion: Project serving the largest population will have priority.

IV. Intended Use Plan

The Priority List and selection of projects intended to be funded are included in the annual Intended Use Plan (IUP) which describes the intended use of federal and state funds available to the program for the upcoming fiscal year.

The IUP is subject to a 30-day public comment period during which time the public is encouraged to participate and comment on the IUP. At the conclusion of the comment period, DOH may revise the IUP as necessary, depending on the comments received. The final IUP is then provided to all loan applicants and to the EPA.

PROPOSED PROJECT FOR SRF FUNDING FORM
State Fiscal Year 20__

Project Title: _____
 County/Applicant: _____
 Estimated Cost: _____ Estimated Start Date: _____

Project Description:

Place an "X" next to each item that applies. The project description must contain information supporting the applicable items.

1. Water Quality Protection		
	Corrects surface water quality impairment or eliminates/prevents ground water contamination.	12 pts.
2. Green Infrastructure		
a.	Water reuse facility providing R1 or R2 water and/or reuse transmission and/or distribution system.	10 pts.
b.	Energy Efficiency or Renewable Energy: Uses energy efficient components (e.g.: motors, pumps, blowers, photovoltaic panels, etc.) that reduce energy consumption of a major component by 20% or more; or provides for renewable energy (methane conversion, etc.) or other environmentally innovative technologies (such as hydroelectric turbine at outfall line to generate electricity).	8 pts.
c.	Promotes sustainable infrastructure to withstand the effects of rising sea levels due to climate change and provides adaptation for coastline inundation.	7 pts.
d.	Treats wastewater sludge for reuse.	7 pts.
e.	Energy audit.	3 pts.
3. Compliance and Enforcement		
	Project necessary to achieve compliance with federal or state compliance issue, consent decree, or court order.	5 pts.
4. Project Need		
a.	Secondary treatment for wastewater treatment plant.	4 pts.
b.	Sewer collection system rehabilitation or replacement, infiltration/inflow correction.	4 pts.
c.	Large capacity cesspool and landfill liner projects.	4 pts.
d.	Stormwater equipment, wastewater facilities.	3 pts.

Total Points (for office use):

**APPENDIX C
SUMMARY OF PUBLIC COMMENTS**

I. Public Participation

Pursuant to 40 CFR 35.3150, this proposed *Intended Use Plan*, as well as a public notice soliciting public comments, were posted from December 8, 2016 through January 7, 2017 on the Hawaii CWSRF website at <http://hawaii.gov/wastewater/cwsrf.html>.

II. Testimony and Comments

During the thirty-day public comment period described above, no comments, inquiries, information requests or testimonies were received by the Department of Health.

III. Summary

No comments on this *Intended Use Plan* were received in response to solicitation for public input.

SINA PRUDER, P.E., CHIEF
Wastewater Branch
