

# SELF-CHECKOUT IS HERE!

WIC participants can now use self-checkout (SCO) at select Safeway and Walmart stores.

## WHO CAN USE IT?

All WIC participants with an eWIC card can use the SCO lanes to make a WIC purchase.

Some suggestions to ensure a successful purchase at SCO are:

- Customers who already use SCO and are successfully completing eWIC purchases are good candidates to try SCO with their eWIC card.
- Smaller and simpler purchases are best. Fresh fruit/veg that need to be weighed might take longer at the SCO than at the regular checkout.
- Use the WICShopper app to ensure that foods are both in your benefit package and are WIC allowed prior to checkout.

## HOW DOES IT WORK?

Follow the instructions on screen.

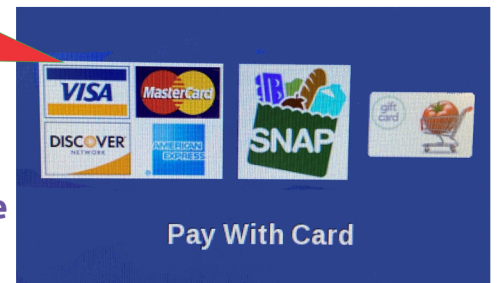

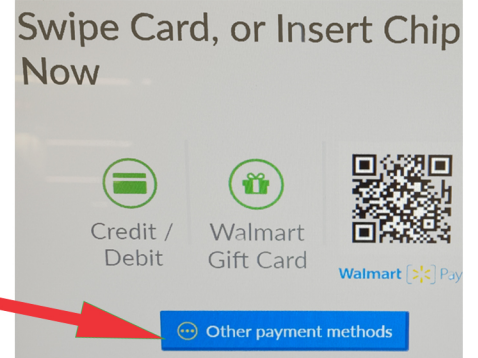

1. Swipe club card (if applicable).
2. Scan all your items (WIC and non-WIC) and tap "Finish & Pay".

**FOR WALMART:** Swipe your eWIC card when scanning is completed. It automatically will prompt for eWIC PIN number. (To manually select eWIC, tap "Other payment methods and then select "eWIC").

**FOR SAFEWAY:** Tap "Pay With Card", then swipe your eWIC card and enter PIN number.

(REMEMBER TO USE YOUR eWIC CARD BEFORE USING OTHER FORMS OF PAYMENT)

3. A midpoint receipt will print out. You will be prompted to approve your transaction at the pin pad.
4. Select "Yes" and your transaction is complete! If you have non-WIC items, you will be prompted to pay remaining balance. Don't forget to take all your receipts.
